PYTHONX® STRUCTURAL

SUCCESS STORY: Hidayath Group
Edges Competition with PythonX STRUCTURAL

Hidayath Group was established in 1976 in Dubai, UAE. Over the years, they have emerged as the largest solution provider in stainless steel and allied metals and have diversified into structural steel fabrication.
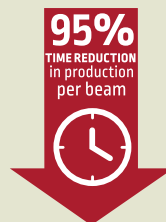

CHALLENGE

The construction industry is booming in the UAE; however, Hidayath struggled to be a competitive supplier. With more and more complex projects coming in, it was getting difficult to keep up with project deadlines, precision, and market demand. All structural operations were performed manually and had to go through several processes, and this was difficult to manage. So they decided to automate their manufacturing process with the PythonX STRUCTURAL.

SOLUTION

THE PRODUCT

When they discovered the PythonX STRUCTURAL, they knew it was the solution to their production problems because they could perform all operations on a single machine. PythonX STRUCTURAL proved to be a complete fabrication shop by itself.

RESULTS

INCREASED EFFICIENCY

Hidayath estimates that the PythonX STRUCTURAL is performing the work of 20 to 25 employees, and this gave them an edge on their competitors.

BEST CUT QUALITY AND ACCURACY

PythonX STRUCTURAL produces best in class holes, slots, copes and notches and no rework is required.

REHAN HIDAYATH

President and CEO,
Hidayath Group

EFFICIENT AS 25 PEOPLE   BEST CUT QUALITY

95%
TIME REDUCTION in production per beam
