

Lincoln Electric Burlington Automation

Accessible Standards for Customer Service Policy

Intent

This policy is intended to meet the requirements of *Accessibility Standards for Customer Service, Ontario Regulation 429/07* under the *Accessibility for Ontarians with Disabilities Act, 2005*, and applies to the provision of goods and services to the public or other third parties, not to the goods themselves.

All goods and services provided by Burlington Automation shall follow the principles of dignity, independence, integration and equal opportunity.

Scope

- a) This policy applies to the provision of goods and services at premises owned and operated by Burlington Automation.
- b) This policy applies to employees, volunteers, agents and/or contractors who deal with the public or other third parties that act on behalf of Burlington Automation, including when the provision of goods and services occurs off the premises of Burlington Automation such as in: delivery services, call centers, vendors, drivers, catering and third party marketing agencies.
- c) The section of this policy that addresses the use of guide dogs, service animals and service dogs only applies to the provision of goods and services that take place at premises owned and operated by Burlington Automation.
- d) This policy shall also apply to all persons who participate in the development of the Burlington Automation's policies, practices and procedures governing the provision of goods and services to members of the public or third parties.

Definitions

Assistive Device – is a technical aid, communication device or other instrument that is used to maintain or improve the functional abilities of people with disabilities. Personal assistive devices are typically devices that customers bring with them such as a wheelchair, walker or a personal oxygen tank that might assist in hearing, seeing, communicating, moving, breathing, remembering and/or reading.

Disability – the term disability as defined by the *Accessibility for Ontarians with Disabilities Act, 2005*, and the *Ontario Human Rights Code*, refers to:

- any degree of physical disability, infirmity, malformation or disfigurement that is caused by bodily injury, birth defect or illness and, without limiting the generality of the foregoing, includes diabetes mellitus, epilepsy, a brain injury, any degree of paralysis, amputation, lack of physical co-ordination, blindness or visual impediment, deafness or hearing impediment, muteness or speech impediment, or physical reliance on a guide dog or other animal or on a wheelchair or other remedial appliance or device;
- a condition of mental impairment or a developmental disability;
- a learning disability, or dysfunction in one or more of the processes involved in understanding or using symbols or spoken language;
- a mental disorder; or
- an injury or disability for which benefits were claimed or received under the insurance plan established under the *Workplace Safety and Insurance Act, 1997*.

Guide Dog – is a highly-trained working dog that has been trained at one of the facilities listed in Ontario Regulation 58 under the *Blind Persons' Rights Act*, to provide mobility, safety and increased independence for people who are blind.

Service Animal – as reflected in *Ontario Regulation 429/07*, an animal is a service animal for a person with a disability if:

- it is readily apparent that the animal is used by the person for reasons relating to his or her disability; or
- if the person provides a letter from a physician or nurse confirming that the person requires the animal for reasons relating to the disability.

Service Dog – as reflected in *Health Protection and Promotion Act, Ontario Regulation 562* a dog other than a guide dog for the blind is a service dog if:

- it is readily apparent to an average person that the dog functions as a service dog for a person with a medical disability;
- or the person who requires the dog can provide on request a letter from a physician or nurse confirming that the person requires a service dog.

Support Person – as reflected in *Ontario Regulation 429/07*, a support person means, in relation to a person with a disability, another person who accompanies him or her in order to help with communication, mobility, personal care, medical needs or access to goods and services.

General Principles

In accordance with the *Accessibility Standards for Customer Service, Ontario Regulation 429/07*, this policy addresses the following:

- A. The Provision of Goods and Services to Persons with Disabilities;

- B. The Use of Assistive Devices
- C. The Use of Guide Dogs, Service Animals and Service Dogs
- D. The Use of Support Persons
- E. Notice of Service Disruptions
- F. Customer Feedback
- G. Training
- H. Notice of Availability and Format of Required Documents

A. The Provision of Goods and Services to Persons with Disabilities

Burlington Automation will make every reasonable effort to ensure that its policies, practices and procedures are consistent with the principles of dignity, independence, integration and equal opportunity by:

- ensuring that all customers receive the same value and quality;
- allowing customers with disabilities to do things in their own ways, at their own pace when accessing goods and services as long as this does not present a safety risk;
- using alternative methods when possible to ensure that customers with disabilities have access to the same services, in the same place and in a similar manner;
- taking into account individual needs when providing goods and services; and
- communicating in a manner that takes into account the customer's disability.

B. Assistive Devices

Customer's own assistive device(s):

Persons with disabilities may use their own assistive devices as required when accessing goods or services provided by Burlington Automation.

In cases where the assistive device presents a safety concern or where accessibility might be an issue, other reasonable measures will be used to ensure the access of goods and services. For example, open flames and oxygen tanks cannot be near one another. Therefore, the accommodation of a customer with an oxygen tank may involve ensuring the customer is in a location that would be considered safe for both the customer and business. Or, where elevators are not present and where an individual requires assistive devices for the purposes of mobility, service will be provided in a location that meets the needs of the customer.

C. Guide Dogs, Service Animals and Service Dogs

A customer with a disability that is accompanied by guide dog, service animal or service dog will be allowed access to premises that are open to the public unless otherwise excluded by law. "No pet" policies do not apply to guide dogs, service animals and/or service dogs.

Recognizing a Guide Dog, Service Dog and/or Service Animal:

If it is not readily apparent that the animal is being used by the customer for reasons relating to his or her disability, Burlington Automation may request verification from the customer.

Verification may include:

- a letter from a physician or nurse confirming that the person requires the animal for reasons related to the disability;
- a valid identification card signed by the Attorney General of Canada; or,
- a certificate of training from a recognized guide dog or service animal training school.

Care and Control of the Animal:

The customer that is accompanied by a guide dog, service dog and/or service animal is responsible for maintaining care and control of the animal at all time.

Allergies:

If a health and safety concern presents itself for example in the form of a severe allergy to the animal, Burlington Automation will make all reasonable efforts to meet the needs of all individuals.

D. Support Persons

If a customer with a disability is accompanied by a support person, Burlington Automation will ensure that both persons are allowed to enter the premises together and that the customer is not prevented from having access to the support person.

There may be times where seating and availability prevent the customer and support person from sitting beside each other. In these situations Burlington Automation will make every reasonable attempt to resolve the issue.

In situations where confidential information might be discussed, consent will be obtained from the customer, prior to any conversation where confidential information might be discussed.

E. Notice of Disruptions in Service

Service disruptions may occur due to reasons that may or may not be within the control or knowledge of Burlington Automation. In the event of any temporary disruptions to facilities or services that customer's with disabilities rely on to access or use Burlington Automation's goods or services, reasonable efforts will be made to provide advance notice. In some circumstances such as in the situation of unplanned temporary disruptions, advance notice may not be possible.

Notifications will include:

In the event that a notification needs to be posted the following information will be included unless it is not readily available or known:

- goods or services that are disrupted or unavailable
- reason for the disruption
- anticipated duration
- a description of alternative services or options

Notifications Options:

When disruptions occur, Burlington Automation could provide notice by the following means:

- posting notices in conspicuous places including at the point of disruption, at the main entrance and the nearest accessible entrance to the service disruption and/or on the Burlington Automation website;
- contacting customers with appointments;
- verbally notifying customers when they are making a reservation or appointment; or
- by any other method that may be reasonable under the circumstances.

F. Feedback Process

Burlington Automation is always open to customer feedback and customers can provide either verbal or written feedback on the service they have received. Information about the feedback process can be readily available to all customers upon request. All feedback from customers with disabilities will be documented along with any responses and applicable actions taken by the company.

Submitting Feedback:

Customers can submit feedback to:

Karen Evans
Sales & Marketing Coordinator
Burlington Automation
3 Innovation Drive, Hamilton, Ontario L9H 7L8
Phone# 905-689-7771 Ext 300
karene@burlingtonautomation.com
Burlingtonautomation.com

Customers who wish to provide feedback by completing an onsite customer feedback form or verbally can do so to any Burlington Automation Sales Representative and/or Customer Service Representative.

Customers that provide formal feedback will receive acknowledgement of their feedback and where applicable could receive an update resulting from actions taken by Burlington Automation to improve service based on concerns or complaints that were submitted.

G. Training

Training will be provided to:

- a) all employees who deal with the public and,
- b) those who are involved in the development and approval of customer service policies, practices and procedures.

Training Provisions:

As reflected in *Ontario Regulation 429/07*, regardless of the format, training will cover the following:

- A review of the purpose of the *Accessibility for Ontarians with Disabilities Act, 2005*.
- A review of the requirements of the *Accessibility Standards for Customer Service, Ontario Regulation 429/07*.
- Instructions on how to interact and communicate with people with various types of disabilities.
- Instructions on how to interact with people with disabilities who:
 - use assistive devices;
 - require the assistance of a guide dog, service dog or other service animal; or
 - require the use of a support person (including the handling of admission fees).
- Instructions on what to do if a person with a disability is having difficulty accessing your services.
- Any other Burlington Automation policy, procedure and/or practice that pertains to providing accessible customer service to customers with disabilities.

Training Schedule:

Burlington Automation will provide training as soon as practicable. Training will be provided to employees who deal with the public during orientation or specific AODA training. Revised training will be provided in the event of changes to legislation, procedures and/or practices.

Record of Training:

Burlington Automation will keep a record of training that includes the dates training was provided and the number of employees who attended the training.

Notice of Availability and Format of Documents

Burlington Automation shall notify customers that the documents related to the *Accessibility Standard for Customer Service* are available upon request and in a format that takes into account the customer's disability. Notification will be given by posting the information in a conspicuous place owned and operated by Burlington Automation, the Burlington Automation's website and/or any other reasonable method.

Administration

If you have any questions or concerns about this policy or its related procedures please contact:

Jason Brisebois
Director of Human Resources & Communications
Lincoln Electric Company of Canada
(416) 467-4292
179 Wicksteed Avenue
Toronto, ON
M4G 2B9
Jason_brisebois@lincolnelectric.com

This policy and its related procedures will be reviewed as required in the event of legislative changes.

Acknowledgement & Agreement

I, _____, acknowledge that I have read and understand the Accessibility Standards for Customer Service Policy of Burlington Automation . Further, I agree to adhere to this Policy and will ensure that employees working under my direction adhere to these guiding principles. I understand that if I violate this Policy, I may face corrective action, up to and including termination of employment.
